

Dillon Drenzek

On a Mission

I have an eye for good design, a knack for elegant code, and a solid empathy for people. These three strengths are the foundation of my career crafting technology that enhances peoples' lives.

Quality Producer

At Peach I learned to write code more efficiently in an older, larger codebase - prioritizing speed and function, but not once sacrificing quality

Quick Learner

I started at Vizualiz with zero experience in Angular 2. Not only did I learn it quickly, I became a resource for the team as we all learned the evolving framework.

Self-Directed

When Native was founded, I anchored development of the iOS app. The other developer was usually busy being the CEO, so I often implemented key features independently.

A Rare Unicorn

People who can design, as well as write code, are known as unicorns. All I'll say is that my natural habitat is among Photoshop layers and blocks of code, where I thrive on creativity.

EXPERIENCE

Software Development Engineer

PEACH

NOV '17 - MAY '18

SEATTLE, WA

- Implemented brand new Admin Dashboard for company contacts
- Built several projects to increase engagement and improve customer experience including an order tracker and a milestone-based incentive program
- Maintained Driver & Restaurants app; transitioned to new deployment system
- Worked on developer on-call rotation to quickly diagnose and resolve bugs

Web Application Developer

VIZUALIIZ

FEB '16 - JUN '17

SEATTLE, WA

- Quickly learned early Angular 2 & updated application as framework evolved
- Helped architect application data model, REST API, data flows within Angular
- Implemented key modules like user authentication, search & dynamic forms
- Lead front-end UI design & established front-end testing framework

iOS Developer

NATIVE (A TECHSTARS-BACKED COMPANY)

FEB '14 - MAY '15

BOULDER, CO

- Lead early development as company participated in top startup accelerator

SKILLS

WELL-VERSED ←

→ PROFICIENT

Web Development

Angular.js

Bootstrap

Ionic

RxJS

MongoDB

Angular 2+

Foundation

Cordova

Node.js

PostgreSQL

Sass

REST APIs

React/Redux

Pug/Jade

Django

JavaScript

UI Design

Workflow

Testing

Programming

CSS3

Sketch

Git/GitHub

Jasmine

Python

HTML5

Photoshop

NPM Scripts

Karma

Objective-C
